RE: 30 Day Post-General Report (10/14/10 11/22/10)

Dear Mr. Holly,

In response to your letter dated January 6th, 2011:

1. The \$1,473,003.77 in unitemized contributions is correct. There were more than 45,000 contributors of \$200 or less for this period.
2. Reporting error- The database software automatically defaults post election activity to the next election. The Committee overlooked this default. All of these have now been corrected on the amended report.
- 3 and 4. Dale Brown s \$2,400 contribution on 10/26/2010 was originally recorded as a contribution from his wife Rita Brown. The Committee filed the 48-hour notice as a contribution from Rita, but later reattributed her contribution to her husband Dale to correct excessive contribution for the General 2010 election and Dale had not. Susan Rowe s \$2,000 contribution on 10/27/2010 was originally a contribution from her husband David Rowe. We filed the 48-hour notice as a contribution from David, but later reattributed his contribution to his wife Susan. This is because he had already reached the contribution limits and Susan had not. Derek M. Madison s \$2,400 contribution on 10/23/2010 was reported as a 48-hour notice because we received, deposited, and reported his contribution. However, we were notified a few days later from the bank that his check bounced for having insufficient funds. Since the 30-Day post general report was not due until 12/2/2010 and we were never actually in receipt of the money we deleted his contribution from our database.

Sincerely,

Daniel G. Puhl
Treasurer
